Backend Engineer (Ruby on Rails | AWS | Scalable SaaS Systems)

Backend-focused engineer with 3+ years of experience designing and maintaining multi-tenant SaaS applications. Strong expertise in Ruby on Rails, financial API integrations, background job orchestration, and AWS-based deployments. Experienced in building real-time systems, improving performance, and delivering production-grade features in Agile environments.

TECHNICAL STACK

Backend: Ruby on Rails, golang, REST APIs, MVC

Frontend: html, css, javascript, react js

Databases: PostgreSQL (indexing, query optimization), Redis

Testing: RSpec, TDD / BDD

Tools & Infrastructure: AWS, Sidekiq, CI/CD, Docker, GitHub, Jira, Linear, Trello, AppSignal

Professional Experience

Associate Software Developer | CodeNote IT Solutions Pvt. Ltd. | Indore March 2024 – Present

- Designed and maintained multi-tenant architecture for a GDPR-compliant SaaS platform.
- Implemented organization-specific localization and dynamic text configuration.
- Built role-based access control (RBAC) system ensuring secure data segregation.
- Integrated financial APIs including Intuit, Sage, Fivaldi, and Dinero for real-time accounting data aggregation.
- Implemented rate limiting and exponential backoff retry strategies for resilient API communication.
- Refactored dynamic report generation engine, improving report delivery performance by 40%.
- Designed and deployed background job pipelines using Sidekiq and Redis.
- Contributed to AWS-based backend deployment and production environment management.

Junior Software Developer | Precious Infosystem Pvt. Ltd. Indore | March 2023 – Feb 2024

- Designed commission calculation engine for CRM platform (Valenta.io) with dynamic payout rules.
- Built optimized sub-order splitting logic for multi-vendor restaurant ordering platforms.
- Improved order processing accuracy and database performance.
- Participated in Agile sprint planning, peer code reviews, and feature testing cycles.

Personal Projects

Real-Time Social & Communication Platform

Ruby on Rails, PostgreSQL, Redis, ActionCable, Sidekiq, Docker, Razorpay, FCM

- Built a Ruby on Rails backend for a real-time social platform with messaging, media sharing, and audio/video calling.
- Implemented real-time messaging, user presence, and event updates using ActionCable and Redis.
- Developed a virtual wallet and gifting system with transaction tracking, Razorpay integration, and withdrawal workflows.
- Integrated third-party services including FCM, MSG91, ImageKit, and Stream SDK.
- Used Sidekiq, Redis, and Docker to support background processing, caching, and consistent deployment environments.

Education

Bachelor of Technology (B.Tech), Computer Science

Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal

2019 – 2023
